THE RENAISSANCE OF COLOR

MX-3500N/MX-3501N/MX-4501N

THE PERFORMANCE AND RELIABILITY YOU EXPECT—WITH THE ADDED VALUE OF BRILLIANT COLOR

Sharp's MX-3500N, MX-3501N and MX-4501N workgroup color multifunction document systems redefine the standard for productivity. With uncompromising quality and outstanding reliability, these new color document systems deliver all the functionality today's growing businesses need, along with the added benefits of high-quality, cost-effective color. Best-in-class multifunction features allow you to work smarter and faster than ever. These versatile, scalable systems can easily copy, print, scan, fax, e-mail or store your files with great efficiency. But that's only the beginning. The MX Color Series also offers Sharp's newest innovation, **Sharp OSA™ development platform**. Designed to boost productivity, the Sharp OSA platform gives you one-touch access to your business applications right from the LCD display, offering a new realm of control and convenience. Our advanced web-based management and easy-to-use tools make monitoring and containing costs effortless, so keeping an eye on the bottom line is never an issue. And for unparalleled security, Sharp's MX Color Series can help protect your data by securing walk-up, scan and network access. With several layers of device protection, Sharp can help keep your business ahead of regulatory compliance.

ADVANCED FEATURES

OPTIMIZE PRODUCTIVITY WITH HIGH-PERFORMANCE FEATURES THAT GET THE JOB DONE

THE TOTAL PACKAGE

With impressive speeds at 35 ppm in both B&W and Color, the MX-3500N and MX-3501N can easily keep up with the demands of busy offices and workgroups. The faster MX-4501N delivers a speedy 45 ppm in B&W and 35 ppm in color. With an incredible **5,600-sheet maximum paper capacity** and productive **document finishing options**, these powerful performers can handle even the largest projects with ease. With trayless duplexing, electronic sorting and integrated offset stacking, the MX Color Series make organization and distribution effortless. Front-loading paper drawers and easy-to-change toner cartridges simplify maintenance. And if that's not enough, new **long-life consumables** and supplies minimize service calls, resulting in lower operating costs.

MX Color Series shown with Saddle-stitch Finisher, Hole Punch and Paper Desk options.

COLOR SCAN² TECHNOLOGY DELIVERS TWICE THE PRODUCTIVITY

Speed up your workflow with Sharp's innovative **Color Scan² technology**. A standard 150-sheet duplexing single pass document feeder (DSPF)* with simultaneous scanning of 2-sided documents allows the MX-3501N and MX-4501N to easily process large-scale projects with incredible efficiency. And since the document is scanned only once, productivity and reliability are significantly increased.

INNOVATIVE DOCUMENT FILING

For even more efficiency, the MX-3501N and MX-4501N offer convenient **Document Filing**. Businesses can now maintain consistency by standardizing and storing frequently used files such as fax cover sheets, distribution forms, and more. With **30 GB of storage capacity***, everyone can retrieve and share documents. Need to restrict access to select users? Not a problem. With private storage features, PIN-code access, and **My Folders**, you can easily store sensitive documents securely. And with Sharp's new **Quick Folders**, you can temporarily store and retrieve documents with fast, one-touch simplicity. Plus, an advanced backup system helps ensure that your files are safe and secure.

BEST-IN-CLASS IMAGE QUALITY

Sharpen your business communications with crisp, clear images and dazzling color. Create dynamic proposals and newsletters that get noticed and make a statement. Sharp's

micro-fine toner technology and **Image Stabilizing System** ensure color accuracy from the first page to the last, so your documents always look good.

OUT-OF-THE-BOX NETWORK PRINTING

With simple plug and play operation, the MX Color Series offer 600 x 600 dpi B&W and Color printing right from your desktop.

Time-saving features such as cover page printing, overlay print and pamphlet mode rival the results you'd get from quick printers. You can even save your preferences for fast recall. And with the optional Postscript® compatible driver, you get extensive color controls, as well as convenient PDF printing.

ADVANCED FINISHING FEATURES DELIVER PROFESSIONAL RESULTS

Easily save time and money by completing color jobs in-house. Presentations or newsletters once sent out for printing can easily be bound (three-position or hole-punched with the compact **Inner Finisher** or **Saddle-stitch Finisher** options). You can also create professionally finished color pamphlets and brochures with the Saddle-stitch Finisher.

VERSATILE SCALABILITY

THE SHARP OSA PLATFORM CAN LEVERAGE YOUR INVESTMENT AS YOUR BUSINESS NEEDS EVOLVE.

The MX Color Series are enabled with Sharp's newest innovation—The **Sharp OSA™ Development Platform**. Designed to enhance the way you work, Sharp OSA technology delivers an entirely new realm of productivity by enabling users to access applications directly through the LCD display. With Sharp OSA technology, the MX-3500N, MX-3501N and MX-4501N become a gateway into your network, providing fast, flexible access no matter where you are in the office. Sharp OSA technology enables you to truly customize your document workflow and manage your files easily and efficiently. It's a completely new way of working that opens the door to increased efficiency. And since the Sharp OSA Development Platform utilizes industry-standard network protocols such as SOAP, XML, and XHTML, Sharp's partner program members can deliver customized solutions to your business faster than ever.

SHARP OSA TECHNOLOGY AT A GLANCE

- Automate tasks and save time with seamless integration between MFPs and network applications
- Centralized applications minimize set-up and installation on multiple MFPs
- Helps repetitive tasks and streamlines workflow, increasing efficiency
- Maximize your return on investment with tighter integration between your IT assets
- Industry standard programming results in faster deployment of new solutions

INDUSTRY-LEADING SECURITY HELPS PROTECT YOUR ASSETS

"Most Secure MFP"
Award

"Outstanding MFP
Security Solution"

To help secure your electronic documents, the MX Series document systems offer several layers of network and data security to protect valuable data. As the leader in office equipment security, Sharp enables IT professionals to safely deploy digital copying, printing, scanning and faxing in any business or government environment.

SECURE WALK-UP ACCESS

The MX Color Series utilize an advanced Account Management System, which enables administrators to setup authority groups for walk up users. Enabled either by account code or user authentication login, this easy-to-use system can lock out unauthorized walk-up users, as well as help your company control costs by restricting color output and other features.

SECURE THE OUTPUT

To help protect your printed documents from unauthorized viewing, the MX Color Series offer Confidential Printing, which requires users to enter a PIN code in order to print their queued document. Additionally, Secure Fax Release ensures received fax documents are held in memory until an authorized user enters a PIN code.

SECURE NETWORK SCANNING ACCESS

To help protect your network from unauthorized e-mail communications, the MX Color Series support user authentication, which requires users to login before performing any network scanning operations.

SECURE DEVICE ACCESS OVER THE NETWORK

To help restrict access to the device over the network, the MX Color Series offers Secure Socket Layer (SSL Encryption) IP/MAC address filtering, protocol enable/disable and port management for maximum security.

SECURE YOUR DATA

To help protect your data, the MX Color Series offer an optional data security kit, which encrypts document data using 128-bit encryption. Additionally, the data security kit erases the memory on the hard drive by overwriting the encrypted data up to seven times, offering an unprecedented level of assurance.

SECURE THE AUDIT TRAIL

Sharp offers hardware and software accessories that help you control, access, and track usage across your entire office equipment fleet.

These scalable security offerings aim to protect your intellectual property, preserve confidential information and help your business to meet regulatory requirements, such as the Health Insurance Portability and Accountability Act (HIPAA), and the Gramm Leach Bliley Act (GLB). STREAMLINE YOUR WORKFLOW WITH POWERFUL FEATURES

Whether you're an administrator or desktop user, the MX-3500N, MX-3501N and MX-4501N are incredibly easy to use. The intuitive, touch-screen display is easy to navigate, and provides instant access to powerful distribution features. You can even customize specific "keys" to store frequently used settings or to recall recurring jobs, so making adjustments is a snap. Plus, with separate copy buttons for B&W and color, users can easily select what they need.

DUAL JOB QUEUES FOR ADVANCED PRODUCTIVITY

The MX Color Series feature a powerful multi-tasking controller that ensures that copy, fax and print jobs output continuously for optimum efficiency. Whereas traditional controllers perform one function at a time, the MX Color Series can process incoming jobs even while existing jobs are output.

AWARD-WINNING NETWORK SCANNING

With Sharp's powerful ImageSEND technology, the MX-3500N, MX-3501N and MX-4501N become powerful distribution hubs that centralize document workflow, reduce overnight courier costs, and save time. Sophisticated network scanning enables you to send files to any of seven destinations: E-mail, Desktop, FTP, Network Folder (SMB), USB, Fax and i-Fax. The Send to Group mode allows you to mix group broadcasts to E-mail, Fax, and Internet Fax for increased efficiency.*

A larger, easy-to-read touch-screen display with customizable "keys" is just one of several enhancements to the operation panel. Separate buttons for B&W and Color make copying a snap.

SECURE SCANNING AT YOUR FINGERTIPS

The MX-3500N, MX-3501N and MX-4501N minimize the risk of unauthorized scanning with integrated **User Authentication**. The advanced controls allow you to configure the MX Color Series to require User Authentication via your company's LDAP server with up to three levels of identification. This protects sensitive documents from being scanned, faxed or e-mailed—so your data is never compromised.

CONVENIENT USB SUPPORT

For advanced portability and convenience, the MX-3500N, MX-3501N and MX-4501N have a USB port and support popular USB memory devices. Easily scan files directly to a USB device, or simply plug in and print directly without copying files back and forth. Sharp's MX-3500N, MX-3501N and MX-4501N support industry-standard file formats including TIFF, JPEG, PDF, and Encrypted PDF.*

POWERFUL SUPER G3 FAXING

With lightning-fast speed, the optional **Super G3 fax kit** delivers powerful fax capabilities. The ultra-efficient MX-3500N, MX-3501N and MX-4501N can staple and/or copy inbound faxes, so your documents are collated and ready to distribute. With efficient **Inbound Fax Routing**, faxes can be forwarded directly to your e-mail address. Authorized users can easily manage settings right from their PC through the user-friendly Home Page. And for additional savings, the optional **B&W Internet Fax expansion kit** can help reduce long-distance phone costs.

*Some destinations require optional equipment

DOCUMENT MANAGEMENT

INTEGRATED, EASY-TO-USE SOFTWARE PROVIDES COMPREHENSIVE DOCUMENT CONTROL

The feature-rich MX-3500N, MX-3501N and MX-4501N are sophisticated, yet exceptionally user friendly. To help you manage all of the versatile features of the MX-3500N, MX-3501N and MX-4501N, Sharp designed the **Administration Utility Suite**, a collection of **easy-to-use software** that simplifies installation and management. This broad suite of tools delivers all the control you need from walk-up user access to complex network management.

THE EMBEDDED WEB PAGE DELIVERS INSTANT DESKTOP ACCESS

Manage advanced features of the MX Color Series right from your desk with Sharp's easy-to-use Home Page. Set personalized scanning destinations, profiles, web-links, and fax distribution features. You'll also gain access to My Sharp, a customized website for on-demand training and support.

SEE THE WHOLE PICTURE WITH PRINTER ADMINISTRATION UTILITY

View devices on the network, install features and distribute drivers over the network—all from one single interface. Monitor device usage for both B&W and Color jobs, set printing priorities or move jobs to different devices to expedite workflow.

KNOW WHAT'S HAPPENING WITH PRINTER STATUS MONITOR

Designed for both managers and desktop users, Printer Status Monitor allows you to view printer conditions, check paper levels, toner, and more all through an easy-to-use interface.

INTEGRATE SCANNED FILES WITH SHARPDESK® SOFTWARE

With Sharpdesk document management software, you can easily integrate scanned documents into your everyday workflow. Organize, edit, and convert—even combine several scanned files into one document. And with full text search capabilities, users can retrieve documents faster than ever.

REDUCE DOWNTIME WITH REMOTE E-MAIL DIAGNOSTICS

Now managers can stay on top of device productivity. Key operators can automatically receive meter reads and specific diagnostic information about the MX-3500N, MX-3501N and MX-4501N sent right to their desktop.
